TEAMS:
CYBERESCAPE ONLINE

A Gamified, Educational Experience for Teams

The first of its kind, Living Security's Teams: CyberEscape Online is a virtual, interactive experience that uses gamification to educate enterprise teams on critical security topics to minimize risky human behavior.

Gamify Team-Based Training for Results

A high-impact security training experience, Teams: CyberEscape Online utilizes gamification to ensure active engagement across your workforce. Within each game, virtual participants work together, racing against the clock to solve interactive cybersecurity puzzles.

Boost Retention with Experiential Learning

Empower your workforce to change security behavior and improve retention of key security learnings with an interactive cybersecurity training experience that is more effective than standard training. Behavioral science research has proven there is a 16X increase in retention from experiential learning vs. traditional training.

16X INCREASE IN RETENTION

Scale Across Your Entire Enterprise

Bring your workforce together for a fun, interactive, virtual experience. Bring departments and team members together from various geographic locations, departments, or for specific initiatives like onboarding or teambuilding. This cybersecurity-focused experience easily expands across the organization to ensure widespread and vigilant security culture that turns every employee into a security asset.

> *CyberEscape Online utilizes the strongest gamification principles, with exciting storylines, strong narratives, and engaging puzzles, combined with a company-wide leaderboard that brings employees together while learning how to be more secure. We [...] received only positive feedback! They have fun, learn, and ask for more.*

– FTSE Top 10 Pharmaceutical Company

> *The overwhelming response has been really positive [...] Definitely a great platform with so many ways to get the key messaging to our internal audiences.*

– Financial Services Company

Key Features

Teams: CyberEscape Online has quickly become the most popular team-based cybersecurity training product in the world. With a 95% positive rating from participants, it engages multiple learning styles to ensure your workforce understands and retains the material while having fun with their colleagues.

Customizable Experiences

Ensure every participant's experience is highly relevant to them for the best engagement and lasting retention. Easily personalize each session for a specific department, role, or your industry. Learn more about customizations.

Virtual Team Activities

Learn and work together as a team to solve puzzles regardless of each individual's location. Remote participants remain engaged by reading, listening, and enjoying games with colleagues.

Multiple Exciting Storylines
